

Helps relieve mild osteoarthritis symptoms. With eucommia used to strengthen bones and enhance the health of connective tissue in traditional Chinese medicine.

KEY BENEFITS

Glucosamine Advanced Repair combines:

- ✓ Glucosamine to help relieve mild osteoarthritis symptoms including mild joint pain
- ✓ Eucommia, which is traditionally used as a kidney and liver tonic that relieves symptoms of mild arthritis in traditional Chinese medicine (TCM)
- ✓ Eucommia is also traditionally used in TCM to strengthen bones and enhance the health of connective tissues like ligaments and tendons
- ✓ Manganese to support healthy joint cartilage production
- ✓ Vitamin C to support collagen formation
- ✓ Silica to support healthy bone density and integrity

Always read the label. Follow the directions for use. If symptoms persist, worsen or change unexpectedly, talk to your health professional.

PRODUCT FEATURES

- ✓ With GlucosaGreen[®], an innovative source of glucosamine produced from a non-GMO vegetable source. Production of GlucosaGreen is via environmentally friendly technology resulting in minimal environmental impact – production uses 99.9% less water and results in 55x less solid waste (for more information visit glucosagreen.com)
- ✓ Contains MSM (dimethyl sulfone)
- ✓ Plus traditional Chinese herbs

ACTIVE INGREDIENTS

Each capsule contains:

Glucosamine sulfate sodium chloride 471.05mg, equiv. glucosamine sulfate	375mg
Bovine sodium chondroitin sulfate 114.06mg, equiv. bovine chondroitin sulfate	105mg
Dimethyl sulfone (MSM)	125mg
Ascorbic acid (vitamin C)	40mg
Silicon (as colloidal anhydrous silica)	5.6mg
Manganese (as manganese amino acid chelate)	1.5mg
Plus dry extracts:	
Eucommia (<i>Eucommia ulmoides</i>) stem bark 100mg, equiv. to dry	1.5g
Acanthopanax (<i>Eleutherococcus nodiflorus</i>) root bark 35mg, equiv. to dry	350mg

NO ADDED artificial colours, flavours, sweeteners or preservatives, yeast, gluten, wheat, nuts or dairy products. Made in Australia.

DOSAGE

Adults: Take 2-4 capsules daily with food, or as professionally advised.

CAUTION

- Contains 48.72mg sodium per capsule.

BACKGROUND INFORMATION

OSTEOARTHRITIS IN AUSTRALIA

Osteoarthritis (OA) is a chronic and progressive condition that mostly affects the hands, spine and joints such as hips, knees and ankles. It is the most common form of arthritis and the predominant condition leading to knee and hip replacement surgery in Australia.

- 2 in 3 people who have osteoarthritis are female
- 1 in 11 Australians (9%) have osteoarthritis, approximately 2.1 million people in 2014-15
- 1 in 4 people with OA reported they had fair or poor health. That's twice the number of people without the condition

Risk factors for OA include age, being overweight, obesity, genetic factors, developmental dysplasia of joints, misalignment of joints, injuries and uneven load distributions.

WHAT IS GLUCOSAMINE?

Glucosamine is a sugar naturally produced by the body that supports the structural components of cartilage. Cartilage covers and protects the ends of the bones, allowing bones to move smoothly against each other. Glucosamine comes in two main forms - glucosamine sulfate and glucosamine hydrochloride.

Glucosamine sulfate has been clinically-trialled for relief of mild osteoarthritis symptoms including joint mobility and mild joint pain. Glucosamine helps to enhance joint health by slowing progression of joint space narrowing.

Always read the label. Follow the directions for use. If symptoms worsen or change unexpectedly, talk to your health professional.

Manganese helps to reduce free radicals formed in the body. Manganese helps maintain a healthy joint cartilage.

Vitamin C plays various roles in normal connective tissue production, including forming collagen and general connective tissue health. It's also an antioxidant helping to reduce free radicals formed in the body.

Silica supports bone health through maintaining bone mineral density and mineralisation, and plays a role in supporting connective tissue health.

Eucommia is used in TCM to help tonify the Liver and Kidneys, providing relief from mild arthritis symptoms, enhancing bone strength, promoting the health of connective tissue and relieving mild aches and pains.

Formula is further supported with MSM, chondroitin and acanthopanax.

COMPANION PRODUCTS

Pain & Inflammation - Herbal pain and inflammation relief.

Kidney Tonic - Contains horny goat weed traditionally used in TCM to help enhance bone strength and relieve mild joint pain.
