

Help fight congestion...

A natural and effective solution to clear airways, helping you to **breathe easier** and **refresh your mind and body**.

“ The Breathe range is my go-to for fighting colds and flu the natural way. I like to put a few drops of the essential oil blend in my diffuser as it's not only a great decongestant, but the antibacterial Eucalyptus and Myrtle essential oils have a fresh clean scent which helps to purify the air. ”

- Oil Garden Ambassador **Magdalena Roze**, mother of two, journalist and meteorologist (featured on the front cover.)

The 100% pure essential oils of **Eucalyptus, Mint & Myrtle** are traditionally used in aromatherapy to help decongest a blocked nose.

breathe easier
